“The beautiful thing about learning is that nobody can take it away from you.”

## SUMMARY

Full Stack Engineer with a decade of experience and a Bachelor's degree in Computer Science. My fascination with computers began at 10, and this passion led me to pursue a career in software development. Proficient in front-end and back-end development, I possess a keen eye for detail and a strong problem-solving aptitude. I have a proven track record of delivering innovative solutions across various industries, with a commitment to continuous learning and adaptability. I look forward to connecting and discussing how I can contribute to your organization.

## SKILLS

<b>Programming Languages</b>	JavaScript, Java, C#, PHP, TypeScript, HTML, CSS, SQL/T-SQL
<b>Frameworks &amp; Libraries</b>	Angular, React.js, Node.js, Spring Framework, Symfony, SASS, Bootstrap, Material Design

## EDUCATION

### Mackenzie Presbyterian University

São Paulo, Brazil

B.S. IN COMPUTER SCIENCE AND ENGINEERING

2015 - 2019

- Graduated with a focus on software development, data structures, and algorithms. Engaged in hands-on projects that honed my programming skills.

### FIEB - Fundação Instituto de Educação de Barueri

Barueri, Brazil

TECHNICAL COURSE IN WEB DESIGN AND DEVELOPMENT

2013 - 2014

- Completed a one-and-a-half-year course in web design covering full-stack technologies, allowing for the creation of complete web applications.

## EXPERIENCE

### Rithum

France (Remote)

FULL STACK ENGINEER

Oct. 2023 - Present

- Developed and maintained C# integration code as part of the Amazon Team for the company's leading e-commerce solution, enabling sellers to list products across multiple marketplaces.
- Participated in on-call rotations, monitoring systems and addressing tickets.
- Enhanced internal systems by managing front-end development using Angular and UI libraries.
- Utilized SpecFlow for behavior-driven development, fixing bugs and collaborating with support to resolve client integration issues.
- Conducted code reviews and provided mentorship to developers, ensuring high standards of code quality.

### Spassu Tecnologia e Serviços

Brazil (Remote)

FULL STACK ENGINEER

Feb. 2022 - Sep. 2023

- Maintained back-office systems for ship operations and billing at Brazilian Petroleum Corporation.
- Collaborated with the National Council of Justice of Brazil on the Court Deposit System.
- Designed and developed front-end applications using Angular.
- Designed and implemented Java Spring RESTful APIs to integrate with third-party bank services.
- Mentored junior developers, improving code quality and maintainability.

## Via Consulting

*Brazil (Remote)*

FULL STACK ENGINEER

*Nov. 2019 - Jan. 2022*

- Developed backend solutions using Java integrated with AWS Lambda, DynamoDB, and S3.
- Delivered front-end applications using Angular and React.
- Played a key role in enhancing airline miles management system for Smiles, improving functionality and user experience.
- Contributed to the development of innovative solutions, improving system efficiency and performance.
- Optimized database schema and queries to improve performance and scalability.

## MC1

*São Paulo, Brazil*

FULL STACK ENGINEER

*May 2017 - Oct. 2019*

- Developed the new version of WTM solution, a productivity tool for field sales and trade marketing teams.
- Contributed to the development and launch of new features in .NET Core C# Web API systems.
- Enhanced the UI using Angular and Material/Bootstrap, adding new features and fixing bugs.
- Conducted quality assurance tests to ensure the application met design requirements and user expectations.

## TIVIT

*São Paulo, Brazil*

FULL STACK ENGINEER

*Jul. 2014 - Apr. 2017*

- Managed a document management system for clients such as TIM and Embraer.
- Adapted to complex business rules, enhancing and supporting large-scale web systems using C#.
- Improved front-end interfaces with advanced CSS techniques and jQuery.
- Provided exceptional client support through email and phone, showcasing strong communication skills.
- Worked with SQL Server database, handling data modeling and complex queries.
